MUHAMMAD ZAHIRUDDIN BIN MUSTAZA

Full-stack Developer | Petaling Jaya, Selangor | Malay and English

muhdzahir248@gmail.com | zahir248.github.io/portfolio | github.com/zahir248

SUMMARY

Software developer with 1.5 years of full-time experience building web and mobile applications end to end: requirements, development, testing (SIT and UAT), deployment, documentation and user training. Eight of my systems are live, including an Android app on Google Play, an online ticketing system with payments and an AI report tool. Open to full-stack and software developer roles in the Klang Valley: office, hybrid or remote.

EXPERIENCE

Software Developer, Intensiti Elemen Sdn Bhd — May 2025 – Present

- Built NUJUM, an AI tool that helps public relations teams write reports, with paid monthly plans (Laravel, MySQL, Gemini, OpenAI)
- Built the ticketing website for BINA, a construction industry conference by CIDB: sign-up, online payment and digital tickets (Laravel, ToyyibPay, Stripe)
- Built the MyGooners fan website and online shop, plus company and school websites that staff can update without IT help
- Tested systems with users (SIT and UAT, with test cases), deployed and maintained them (monitoring, troubleshooting, updates, backups), wrote user manuals and SOPs, and trained staff (Linux, cPanel, GitHub Actions)

Web Developer Intern, VX Ventures Sdn Bhd — Oct 2024 – Mar 2025

- Fixed bugs and tested live websites and a mobile app for community, school and cooperative clients (Laravel, Flutter)

Freelance Web Developer — 2026

- Designed and launched the website of ENADD Logistics, Singapore, with quote requests (HTML, Bootstrap, JavaScript)

PROJECTS

Uros (Google Play)
An app to track spending, keep notes and write a diary, on Android and the web. I built the phone app, the website and the server behind both, with Google sign-in and two-step login (Flutter, React, Spring Boot, PostgreSQL).

mySekilas (iesb.com.my/mysekilas)
A map of Malaysia's elected representatives with news about them from 21 sites, summarised by AI (Laravel, Gemini).

SKILLS

Programming: PHP, Laravel, JavaScript, React, Flutter, Java, Spring Boot, REST API integration, HTML, CSS, Bootstrap

Databases: MySQL, PostgreSQL, Redis

Servers and cloud: Linux (Ubuntu), Apache, cPanel, AWS (EC2, RDS, S3), Moodle

Tools: Git, GitHub, GitHub Actions (CI/CD), Postman

Payments and AI: ToyyibPay, Stripe, Google Gemini, OpenAI

Delivery: SIT and UAT with test cases, user manuals and SOPs, technical documentation, system and data migration, user training

Also used: Node.js, TypeScript, Next.js, Tailwind CSS, Docker

EDUCATION AND CERTIFICATIONS

BSc Computer Science (Software Development) with Honours, UTeM, CGPA 3.68 — 2021 – 2025

Meta Front-End Developer and Meta Back-End Developer Professional Certificates — 2025
