

MUHAMMAD ZAHIRUDDIN BIN MUSTAZA

muhdzahir248@gmail.com | Petaling Jaya, Selangor

Online Portfolio: zahir248.github.io/portfolio

PROFESSIONAL SUMMARY

Hands-on experience in building and maintaining web and mobile applications across the full development lifecycle, including requirement understanding, implementation, deployment, and production support. Experience working with modern frameworks and tools to deliver functional and user-friendly solutions based on real project work. Focused on continuous learning and improving technical skills through practical development experience.

WORK EXPERIENCE

Software Developer, Intensiti Elemen SDN BHD

May 2025 - Present

- Developed and maintained web and mobile applications using Laravel, Next.js, Flutter, PHP, MySQL, and PostgreSQL, covering SaaS platforms, e-commerce systems, school management systems, learning management systems, asset management solutions, corporate websites, event ticketing platforms, and strategic communications platforms.
- Designed and integrated RESTful APIs, AI-powered features, RAG-based knowledge base systems, web scraping workflows, payment gateways, email services, and data processing solutions.
- Implemented CI/CD pipelines using GitHub Actions and managed source code collaboration through GitHub.
- Deployed and maintained applications across Linux-based hosting and cloud environments, including application releases and database migrations.
- Performed bug fixing, system maintenance, feature enhancements, production support, and user training.
- Implemented internal backup and file management solutions using UGREEN NAS.

Web Developer (Internship), VX Ventures SDN BHD

October 2024 - March 2025

- Maintained and contributed to production web applications using Laravel and MySQL, including community engagement platforms, school management systems, and digital cooperative management solutions.
- Collaborated with development teams using GitLab for version control, code collaboration, and feature development.
- Performed bug fixing, testing, and quality assurance for web and Flutter mobile applications.
- Supported application deployment, database migrations, updates, and maintenance across web hosting environments.

SKILLS

Programming & Markup Languages: JavaScript, TypeScript, PHP, Java, HTML, CSS

Frameworks & Libraries: Laravel, React, Next.js, Spring Boot, Bootstrap, Tailwind CSS, shadcn/ui

Mobile Development & Deployment: Flutter, Google Play Console

Databases & Backend Services: MySQL, PostgreSQL, Firebase, Supabase, Redis, Upstash Redis, Upstash QStash

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Docker Hub, Linux (Ubuntu), CI/CD Pipelines (GitHub Actions, GitLab CI/CD)

Hosting & Deployment Platforms: Vercel, Netlify, GitHub Pages, Render, Railway, cPanel

Platforms & Learning Management Systems: Moodle

AI & External Integrations: AI Integration (Google, OpenAI), Google APIs, Payment Gateway Integration (Stripe, ToyyibPay), Telegram Bot API, Apify

Authentication & Security: Google OAuth, Google reCAPTCHA, Google Authenticator

Email & Notification Services: SMTP (Gmail, cPanel), Mailtrap, Resend, Formspree, OneSignal

Development Tools & Environment: Git, GitHub, GitLab, GitHub Desktop, Docker Desktop, Oracle VirtualBox, pgAdmin4, Figma, Cursor, Postman, Visual Studio Code, Android Studio, Spring Tool Suite, Laragon

Languages: Malay, English

CERTIFICATIONS

Meta Front-End Developer (2025)
Meta Back-End Developer (2025)

EDUCATION

Bachelor Of Computer Science (Software Development) With Honours	2021 - 2025
Universiti Teknikal Malaysia Melaka (UTeM)
